

SIZES FOR RINGS

VERY IMPORTANT: print this page in its original format. Disable the "adjust to page" option of your printer. It is very important to print this document on a 100% scale because if it is not done this way, the whole scale of values of the sizes will vary.

Go to FILE, mark the option PRINT, before printing the document, in the section PITCHING SCALE select: NONE.

If you are not sure that you have printed this document correctly, you only need to measure the pattern marked with 10 cm, its measurement to be exactly 10 cm.

If you want to choose a wide cane ring or if you have wide knuckles, choose a higher measure than the real one, in this way it will assure the size and you will obtain a greater comfort.

MEASURE A RING

To check the size of your ring with this template you just have to place the ring on the circles of the table until you find the one that matches.

The measurements must match the inside edge of the ring.
